To: All Stocking Distributors
From: Kevin Downs – Sales Manager
Date: October 8, 2018
Subject: A105, Forged steel, Carbon Branch connections

Effective October 15, 2018 pricing for Forged Steel Branch connections in A105 carbon steel will be increased an average of 15%. The new price sheet is JOT-14.

These necessary increases are a direct result of the continued rapid and unprecedented escalation of costs of tariffs, raw material, scrap surcharges, fuel surcharges, freight surcharges, and insurance that have risen dramatically over the last several months. Additionally, we are reviewing pricing, services, terms and conditions, of all other product categories that have been affected by these rising costs.

Should these costs continue to escalate, as in recent months, we may be required to adjust our prices accordingly in the next 30 to 60 days.

Copies of the price sheets can be downloaded from our Website in a few days.

All of us at Pennsylvania Machine Works, Inc. extend our appreciation for your continued support through the purchase of our products as we cope with the current chaotic market conditions. If you have any questions please do not hesitate to contact us at 1-800-PENNUSA.

Sincerely,

Kevin Downs
Sales Manager
