

500,000 Hours Without an OSHA Recordable Incident!

March 20, 2025

We are thrilled to announce a remarkable achievement: 500,000 hours without an OSHA Recordable Incident!

This milestone reflects our collective commitment to a strong culture of safety and demonstrates how well we work together to prevent workplace injuries.

Special recognition goes to our dedicated teams at Advanced Industrial Technologies (AIT), Diamond Gear, Ladish Valves, Penn Machine Works, Smith Valves, and Western Forge and Flange, for your contributions to this achievement. We also extend our gratitude to all our leaders who have consistently supported and reinforced our safety initiatives. Their daily drive to identify hazards, reduce risk tolerance and look out for one another made this milestone possible.

Thanks also to our Leadership Teams, whose engagement and support created the environment where safety truly comes first.

This achievement belongs to everyone who makes workplace safety a priority every day. Here's to the next 500,000 hours and beyond, without an OSHA Recordable Incident!
